Summary:

With Averatec Drivers Download Utility you can keep your PC running efficiently and effectively with advanced system driver removal, which even deletes those files, directories and registry entries that are left behind by the normal vendor uninstallers. By removing old drivers before installing new drivers you will ensure that your PC will reach its maximal potential and performance. The clear and user friendly interface guides you step-by-step in the removal of the different kind of device drivers, such as sound, printer, keyboard, mouse and graphic card drivers. Averatec Drivers download Utility support follow Averatec devices: Averatec Desktops & Workstations, Averatec Notebooks & Tablet PCs, Averatec Printing & Multifunction, Averatec Digital Entertainment And Audio, Averatec Digital Photography, Averatec Handheld And Calculators, Averatec Monitors and Averatec Networking. Averatec Drivers Download Utility automatically updates its cleaning process by using the driver database to ensure the best possible removal of Windows device drivers, including unused, conflicting and unwanted drivers. The Device control feature introduces an easy to use and advanced Windows device manager that allows you to enable, disable or restart any hardware device. It is even possible to uninstall, backup or restore the drivers of these devices. Additionally, the Device identifier feature will save you a lot of time by trying to identify the type, name and manufacturer of devices listed as 'unknown device' or with a yellow exclamation/question mark. The interface is available in 57 different languages such as English, Dutch, Japanese, Spanish and Russian. Combined with additional features such as device driver backups, reporting, system protection, device identifier, custom filters and a desktop icon and resolution manager. Averatec Drivers Download Utility offers a complete solution to all your device and driver analysis and management needs. Averatec Drivers Download Utility's simple, colorful interface advised us to begin by scanning our system, so we did. The process involves two steps, scanning for updates and reviewing the findings. Averatec Drivers Download Utility found two updates, which doesn't sound like much, but we keep our test system up-to-date. We selected the first update for downloading and chose to ignore the other for the time being. Averatec Drivers Download Utility not only downloaded the update but also unzipped and started it. Better still, it created a restore point and backup so that we could easily roll back any changes it made.
